

# Lean Execution

## The Workshop

A day and a half immersion into the most powerful process for improving quality, cost, and delivery with a hands-on simulation to illustrate and instill the key concepts.

## Who Should Attend

- Operations Management  
(VPs of Manufacturing, Plant Managers, Business Unit Leaders)
- Operations and Continuous Improvement Staff  
(C.I. Managers, Engineers, Quality Managers, Supply Chain Leaders)

## Key Learning Principles

- Basics of Lean (Stability, J.I.T. concepts, Autonomation)
- How to convert your operation from batch to flow
- 5S principles of workplace organization
- Cascade the “wildly important” goals
- Selection process for Lean projects that support your goals

## Schedule

Pittsburgh, PA      June 24-25, 2010

## Pricing

- Individual: \$395.00
- Lodging and Transportation not included

To achieve goals you have never achieved before, you must do things you've never done before.
